GREETINGS: To My Many Friends and Patrons and
the Florist Trade in General:

AGAIN I beg to hand you my Trade List for the

rated therein will be interesting to you. They
are all of them of exceptional merit, and I can
with every confidence recommend them to you.

Should you need anything in my line I trust to be
favored with your esteemed orders, assuring you that I
shall use every effort to retain your confidence in the
future as in the past.

Thanking you for your very liberal patronage in the
past and respectfully soliciting a continuance of the same,

Yours very truly,

JOHN N. MAY.
THE WAY I PREFER TO CONDUCT MY BUSINESS

SHIPPING GOODS. We try to ship every order, weather, etc., permitting, as early as possible after receiving it, and in strict rotation unless instructed otherwise.

CASES AND PACKING are furnished free of charge, except in unusual cases. Every order is selected and packed by experienced packers in the best manner possible, and delivered to the forwarders at Summit in sound condition, in tight cases as long as the weather permits, then in cases securely covered at top with slats, etc., to secure the lowest rate possible.

DELAYS. To avoid these please write every order legibly, sign the same in full, giving Post Office, County and State, also name of Express Company, if any is preferred, by which the goods are to be forwarded; failing this we use the best information obtainable for shipping.

ERRORS AND DAMAGES. Where such occur patrons will confer a favor by advising me by mail immediately on receipt of goods, and if the fault is ours we will correct it at once, if possible, but I cannot guarantee against damages in transportation.

REMITTANCES. All orders from unknown correspondents must be accompanied with remittance from same, or satisfactory references. Money can be sent either by Bank Draft, Post Office or Express Money Orders, or by Registered Letter.

C. O. D. ORDERS will positively not be sent unless half the money be sent with the order as a guarantee of good faith. I will make no exception to this rule.

SIZE OF STOCK. I grow everything offered from pots in standard sizes, and each size is as fine stock as it is possible to produce, and at prices as low as such stock can be produced. Six at dozen rates, 50 at 100 rates and 500 at 1,000 rates, except the new varieties otherwise quoted.

INVOICES are sent with each shipment of goods. The prices are for net cash within 30 days, or 5 per cent. discount for cash with orders. All orders subject to these conditions unless otherwise agreed upon before booking the same.

LARGER SIZE PLANTS. When possible I prepare these for later planting; if orders are placed early enough I can always supply them.

VISITORS are always welcome to inspect our stock.
ROSE ROBERT SCOTT.
See description, page 5.
NEW ROSES FOR 1901.

QUEEN OF EDGELY. A true pink. The rose is an exact counterpart of the American Beauty in every particular except that of color. It has the same vigorous growth and beautiful foliage of the parent plants. Its fragrance is delicious. In color it is a bright pink, approaching Mme. Caroline Testout. As the rose grows older it fades to a lovely shade of light pink. Its keeping qualities are excellent, the flowers holding for a week or longer after being cut. Winner of three medals and ten certificates. Having secured a large block early, we are prepared to furnish extra selected stock as follows:

ROBERT SCOTT. A seedling from Merveille de Lyon crossed with Belle Siebrecht, retaining the size, form, color and growth of the Hybrid Perpetual with the everblooming qualities of the Tea Rose. This new rose is practically an everblooming hybrid, and the first of a type that will not only flower profusely during the spring and summer, but will flower during the winter. It has no tendency to go dormant during the winter, and every shoot has a flower bud. The habit of growth is strong and vigorous, with bright green foliage. The buds are of large size and are produced on stiff stems, with the heavy hybrid foliage almost up to the bud, like its parent Merveille de Lyon. The open flower is of immense size, very double, and is almost as beautiful as the half-expanded bud. The color is new in everblooming roses, and is only seen in the hybrid perpetual class—clear rosy pink, shading to flesh color on the outer petals. Robert Scott will not only be a very welcome addition to our small list of forcing roses, but is everybody’s rose. Awarded honors wherever shown. Certificate of merit and silver medal by Pennsylvania Horticultural Society. Preliminary certificate of merit by American Rose Society. Certificate of merit in Ireland. See illustration, page 4.

We offer both grafted and own root plants for March and April delivery:
